

Exhibit at TACCONF 2024!

CANADA'S LARGEST NATIONAL TRANSPORTATION CONFERENCE
22-25 SEPTEMBER | VANCOUVER CONVENTION CENTRE

Are you an innovator in traffic control, intelligent transportation systems, asset management, data analytics, or telematics?

TACConf 2024 will look at how technological advances are giving us extraordinary new tools to build and operate transportation systems.

WHY EXHIBIT?

Showcase Innovative Solutions

Demonstrate your advanced traffic signal controllers, cutting-edge V2X communication systems, and digital twinning for transportation assets.

Showcase how your solutions transform transportation networks across Canada.

Connect with Decision-Makers

Engage with over 1,400 transportation professionals, including decision-makers from municipal, provincial, territorial, and federal transportation departments. **Learn** about their needs and explore collaboration opportunities.

Gain Insight into the Transportation Industry

Understand the specific needs and challenges of the transportation industry in Canada. **Identify** areas where your technology solutions can make a significant impact.

Enhance Brand Awareness

Position your company as a leader in transportation technology. **Gain** recognition and visibility within the industry.

Delegates from all sectors – **government, private enterprises, academia, and associations** – converge to share insights and exchange invaluable information on the latest technical challenges and innovations shaping transportation across various domains, including safety, mobility, environmental sustainability, infrastructure management, technology integration, and workforce development.
